Profile Summary

Software Developer skilled in building scalable web applications using Python, FastAPI, Django and modern JavaScript. Experienced in REST APIs, database optimization, secure authentication and cloud deployment, with a strong foundation in computer science and emerging GenAI technologies.

Experience

Software Developer

Dec 2025 – Present

Innovative Soch India

Panipat, Haryana

- Architected and developed a scalable ERP backend using **Python** and **FastAPI**, supporting 100+ concurrent users with 99.5% uptime.
- Implemented robust **JWT** and **OAuth2** authentication mechanisms with role-based access control (RBAC), reducing unauthorized access attempts by 95% and ensuring secure user role management.
- Optimized database queries using **SQLAlchemy** ORM and **PostgreSQL**, improving response times by 40% and reducing server load by 30% through efficient indexing, pagination, searching and query parameters tuning.

Python Programmer Intern

Jan 2025 – Apr 2025

Code Alpha

- Developed Python projects using **shutil** for file management and **json** for data serialization and processing.
- Enhanced problem-solving skills and improved accuracy by 80% consistently in projects.
- Completed 5 projects during the internship that can increase my confidence in Python domain.

Cyber Security Training

Nov 2024 – Dec 2024

ICT Academy

Panipat, Haryana

- I gained comprehensive knowledge in network security and system protection, risk management practices.
- Boosted network security compliance by 85% by implementing basic protocols and security controls.
- Increased application security by implementing advanced network protocols, reducing breach attempts by 25%.

Projects

Hotel Booking Management System | Tech Stacks : Python, Django, MySQL, Html, CSS, GitHub

- Developed a web based hotel booking system integrate with **django**, used **railway** database for storing data.
- Implemented authentication for users and vendors registration and login by sending **JWT** token via email.
- Creating better UI by **HTML**, **CSS** and **JS** for vendors and users dashboard. Used **Vercel** for deployment.

AI-Powered Conversational Chatbot | Tech Stacks : Python, GenAI, Langchain, Hugging face API, GitHub

- Built a lightweight AI chatbot with **Streamlit** and **LangChain**, leveraging **Hugging Face's Mixtral-8x7B** model for context-aware responses.
- Implemented session memory, prompt tuning and a clean conversation UI to ensure concise and coherent interactions.

Skills

Languages : Python, SQL, JavaScript, HTML/CSS, C/C++

Frameworks/Libraries : FastAPI, Django, Django REST Framework, Flask, LangChain (GenAI), React.js, Pandas

Databases/Cloud : MySQL, SQLAlchemy, PostgreSQL, SQLite, MongoDB, AWS (S3, RDS, EC2)

Developer Tools/Others: Git/GitHub, Docker, VS Code, Postman, Vercel, Web Scraping(BeautifulSoup)

Coursework : RDBMS, OOP, Operating System, Computer Network, DSA, Logical Organization of Computer

Soft skills : Video Editing, Teamwork, Leadership, Problem Solving, Logic Building, Creativity

Education

Kurukshetra University

2022 – 2025

Bachelor of Computer Applications (CGPA: 7.2)

Panipat, Haryana

Arya Senior Secondary School

2021 – 2022

Class XII (PCM) (70%)

Panipat, Haryana

Certifications and Achievements

- GeeksforGeeks Certification – Python Programming (Basics to Advanced)
- Achieved consistent top 5% of students throughout all semesters.
- Secured **1st Position** in Code War Competition in entire Department
